

FLAME-A-GUARD II[®]

Flame Retardant Paper

- Increases plant efficiency and reduces clean-up and shutdown costs.
- Provides quick, economical compliance with OSHA requirements.

OSHA REG. NO. 1910.107(b)(3) "Floors."

The floor surface of a spray booth and operator's working area, if combustible, shall be covered with noncombustible material of such character as to facilitate the safe cleaning and removal of residues.

Flame Retardant Paper key features:

- 80 pound weight
- White—improves booth visibility
- Reduces potentially dangerous fire hazard
- Allows fast and easy booth clean-up—no scraping, stripping or scrubbing
- Eliminates tracking paint from spray booth to other plant areas
- Lint free
- Rolls are individually boxed for easy storage and shipping
